

I enjoy XM satellite radio, and I particularly appreciate the LA traffic and weather station. During mornings, when I am getting ready for work or travel, all my local stations are jokes, talk, and banter. I know that within 3 minutes of turning my XM dial to the LA station, I will be up-to-date on traffic and weather. I respectfully urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I get from them. Thanks!
